

Wendy Boomhower

ARTIST BIO

Wendy Boomhower is a professional graphic designer and artist working in both the United States and Great Britain. Her distinctive style pays homage to her roots in Northumberland, England. The color palette, patterns and symbolism emanate stories of a sacred and holy nature inspired by the illuminated manuscripts on Lindisfarne Island.

Wendy creates art pieces that tell a story or illustrate a principle in a symbolic and decorative way. She feels so passionate about it that she has named her style SacreNouveau. She invites you to take time to contemplate each art piece as it will unveil things of a deeper nature. The Savior taught through parables and symbols. Those who were prepared to receive His word discovered the deeper meaning of eternal truths.

Wendy brings into each piece a decade of research into symbolism (ancient and new, cultural and spiritual) and combines it in a beautiful decorative style using her graphic design and art skills.

Just prior to relocating to the United States Wendy received a directive from her Heavenly Father to bring others to Christ through her art. Twenty years later she can confidently say that she has found her voice.

After years of working in design studios, museums, and running her own design business some of her proudest moments are exhibiting in the Biscuit Factory (UK's largest independent commercial art, craft & design gallery), juried into the 12th International Art Competition 2022-3 and currently juried into the Parliament of the World's Religions Conference Art Exhibition (Summer 2023).

ARTIST STATEMENT

I passionately speak through images using a style I call SacreNouveau. This unique style is a result of many years of research into symbolism and decades of logo creation for clients. I use multi-cultural symbols, colors, and patterns to convey my understanding of spiritual and humanitarian matters. This is sacred geometry! If you pause long enough to contemplate each art piece you will find my art speaking to your DNA.

I have a passion for creating connectivity between all faiths by celebrating all that we have in common with an additional focus on positively shifting the mindsets of those who are not yet convinced things need to change to heal the broken heart of humanity.

Over the last two years most of my art pieces have been created digitally and either produced as limited edition giclee fine art prints or screen printed. Future art work will be a mix of digital, hand created (oils/ink) and three-dimensional pieces.
